Good morning,

Today the Association un Monde Migrant offers you the opportunity to express yourself, to debate and compare your opinions with those of your classmates on the subject of integration/discrimination.

TAKE ADVANTAGE OF THIS OPPORTUNITY. Why always listen to other people's opinions without

to be able to express oneself and create a dialogue?

The argument we are proposing to you is not the most popular among young people, but you discover the fun aspect with which we offer it.

Dialogue and reflection will help us improve and make our lives more pleasant , because we could all one day, and for various reasons, be confronted to discrimination, exclusion and other aspects related to the phenomenon of migration .

If during the class session you did not have the opportunity or the desire to intervene, are offered the opportunity to continue or complete this exercise.

By following the link <https://www.unmondemigrant.org/youth-unite/> and also thanks to the QR code displayed further down the page you can view the clips that interest you, then answer the question asked.

You can choose to intervene directly on the computer, tablet or Smartphone with a text file, a selfie or by recording your comment vocally.

We will choose the most relevant and interesting ideas from your list and post on the discussion forum dedicated to you and your comrades, accessible on the same platform via the link *“see the opinions of others”*

Here is the list of clips and related questions:

01/ Weakness = Discrimination

QUESTION: “Does a position of weakness foster unfair exploitation?”

02/ Discrimination

QUESTION: “Does discrimination come from ignorance of others?”

03/ Language as a vector of integration?

QUESTION: “Language, a necessary/sufficient condition for integration?”
